1. Conditions of Residential Warranty

In the event of our Click LVT being installed, we recognise this is a more of a DIY install and insist that the product is fitted in accordance with the relevant Click fitting instructions. If all instructions including acclimatisation, correct tools and relevant expansion gap have been followed, we will honour the wear warranty. If (upon inspection) we find that these actions have not been carried out then the warranty will be null and void.

- 1.2 The product has been installed in accordance with the directions contained within the fitting instructions and BS8203:2017 (the standard for installation of resilient flooring) and using the appropriate adhesives for the site conditions.
