Features	General information
<p>Regular nationwide delivery service.</p> <p>Fashionable colours to meet a wide variety of interior styles.</p> <p>Ease of maintenance.</p> <p>All colours available for immediate call off.</p>	<p>One of the key advantages of engineered oak flooring is its stability and resistance to moisture-related issues compared to solid hardwood. Engineered oak consists of multiple layers of real wood, with a top layer of oak veneer called a 'lamella'. This construction minimizes the risk of warping, cupping, or splitting that can occur with solid hardwood floors, while still offering the same beautiful appearance and texture.</p> <ul style="list-style-type: none">- 4 Sided Bevel- Hard Wearing & Long Lifespan- Tongue & Groove Profile- Compatible With Under Floor Heating- UV Lacquer Finish
